

KLOVE radio heard at 91.1 FM in the Denver area is an itergral part of my everyday. It is the first station I turn to for national news and encouraging music. I also receive information on local community events when I listen to KLOVE. This station came to my area at a critical time in my life providing encouragement to me personally when I needed it most. I can't imagine what a great impact KLOVE has had throughout the Rocky Mountain region, but I am shure it has been trememdous and very positive. It is a one of a kind station in our area, perhaps nationally. My hope and prayer is that KLOVE will never be displaced by an LPFM broadcaster. Thank you.
